Dear Madam or Sir:

The California Air Resources Board (ARB) staff invites you to participate in two public workshops regarding the Low Carbon Fuel Standard (LCFS) on Tuesday, March 11, 2014. The first public workshop will be to discuss general updates to the LCFS regulation, and the second workshop will be to discuss updates to the indirect land use change (iLUC) values. During the LCFS workshop, staff will discuss an overview of the LCFS, proposed revisions, and a tentative schedule. Prior to the workshop, staff will release a LCFS Concept Paper, which will provide an overview of the key elements of the 2014 LCFS rulemaking efforts and an update on the current status of the program. This paper will be discussed during the workshop. During the iLUC workshop, staff will discuss a proposal to update iLUC values for corn ethanol, sugarcane ethanol, and soy biodiesel, as well as proposed iLUC values for canola biodiesel, sorghum ethanol, and palm biodiesel. Staff will solicit stakeholder feedback during both workshops.

Enclosed is a draft agenda; prior to the workshop a final agenda, staff presentations, and supporting information will be posted at [http://www.arb.ca.gov/fuels/lcfs/lcfs\\_meetings/lcfs\\_meetings.htm](http://www.arb.ca.gov/fuels/lcfs/lcfs_meetings/lcfs_meetings.htm). In addition to ARB presentations, there will be an opportunity for questions, feedback, and presentations by stakeholders. Following the workshop, stakeholders may send feedback.
